Natural Energy Products & Solutions was founded in 2008 to meet the need of professional plumbing and electrical solutions in the fast developing solar retail industry. Brad and Jo Marriott are the owner directors of Natural Energy Products & Solutions and Brad has almost 20 years experience as a Master Plumber working in Victoria. Incorporating all facets of solar power and installations, pumps and rainbank systems, the business blends domestic and commercial projects with a consultancy service to help consumers reduce their energy costs. We utilise only quality brands such as Greenland, Hills, HyJet and MaxiSave ensuring that your product is both dependable and fully supported. The service you will receive from the team at Natural Energy Solutions is personal and professional. We will tailor your needs with the very best of solar energy solutions. At Natural Energy Solutions we strive to provide service excellence in everything we do.

Inverter Brands: APS, SolarEdge
