

H. R. Solar Solution Pvt. Ltd.

21D, Canning Street, Ground Floor
West Bengal 700001
India

Phone: +91 3322 690141

Demand has been shifting from conventional fossil fuels and nuclear energy that are non-renewable and harmful to the environment to a sustainable form of energy in the form of solar power.

Renewable energy in the form of solar energy has been the latest addition to the global power industry. The concern towards a green and renewable energy source has led to the widespread acceptance of solar energy and development of the solar technology in a much larger scale. Understanding the global demand for a green energy source and a responsibility towards the future, H.R. Solar Solution Private Limited had started its journey in 2011 to manufacture cost effective and high quality solar photovoltaic products for both Grid connected & Off- Grid Power applications like solar pumps, solar street light etc.
